Professional Summary

Enthusiastic Full Stack Developer with more than 1 year of experience in HTML, CSS, JavaScript, React, and jQuery. Skilled in crafting user-centric applications, optimizing web performance, and delivering high-quality solutions aligned with organizational goals

Work Experience

Software Engineer - Simplotel

Bengaluru, India (Nov 2023 - Present)

- Worked as a Scrum Master, managing a team of 15 members and facilitating sprint planning, stand-ups, and reviews.
- Developed responsive web applications using JavaScript, React, HTML, and CSS to deliver dynamic and user-friendly solutions.
- Implemented lazy loading for images, videos, and third-party scripts, optimizing load times and site speed.
- Migrated an existing Ember.js codebase to React with Redux, achieving improved performance and maintainability.
- Applied Cloudinary transformations to images, reducing costs related to media assets by approximately 20%.
- Integrated third-party chatbots, boosting user engagement and interactivity.
- Set up Google Analytics for data-driven decisions, adding GTM tags and SEO codes to enhance search visibility and tracking.
- Fixed critical bugs in the CMS admin panel, developed golden plugin feature, developed booking features like day-use room bookings and a multi-language translator.
- Ensured websites adhered to ADA compliance standards, enhancing accessibility for all users.
- Contributed to live projects for clients including GRT Hotels, Ramoji Film City, Essentia Hotels and Leisure Hotels.
